

## What is it?

The Town of Estes Park Light & Power Department, in partnership with the Governor's Energy Office 2008, is offering rebates on local installation of solar panels and small wind turbines.

This program is designed to off-set the costs of installing these renewable energy generation systems to be used on residential properties in the Estes Valley. Commercial entities may participate in the small wind turbine program only.

An eligible participant will receive \$2/Watt up to \$5,000 for small wind turbines and \$3/Watt up to \$9,000 for photovoltaic (solar) panels to partially reimburse the installation of one or both types of systems. All systems must carry a 5-year manufacturer's warranty and cannot exceed 10 kW capacity per home (or 25 kW capacity for a commercial small wind turbine). Participants will also be enrolled in the town's net-metering program which will credit the customer back for excess energy generated by renewable energy generation systems.

## Do you Qualify?

*If you:*

1. own property within the service area of Estes Park Light & Power; area codes: **80517**, 80532, 80510, or **80511**
2. Install a photovoltaic and/or small wind generation system with a combined capacity of no more than 10 kW and a 5-year manufacturer's guarantee.
3. are or will be participating in the Town of Estes Park Light & Power Department net-metering program.
4. follow all local, county and state regulations and ordinances concerning zoning and building.
5. agree to an inspection verifying you are complying with the net metering policy **you qualify!**

This program will continue until all available funds are committed.

### Average Home Energy Consumption

### How to get your rebate:

1. Install a small wind turbine and/or a photovoltaic system with five-year manufacturers' warranties with capacities of no more than 10kW combined for a residential property. Or, for commercial entities, a small wind turbine with a five-year manufacturer's warranty with a capacity of no more than 25 kW.
2. Contact the Town of Estes Park Light & Power Department at 970-577-3583 to indicate your interest.
3. Schedule the required inspection(s), if applicable.
4. Fill out and submit the rebate application and the Town of Estes Park Agreement for Interconnection and Parallel Operation of Customer Generation System that will be sent to you (applicants considered on a first come/first served basis) along with the necessary documentation.
