SUPPLEMENTATION

Supplements to this Code provide periodic updating through the removal and replacement of pages. This inter-leaf supplementation system requires that each page which is to be removed and replaced is identified so that the updating may be accurately accomplished and historically maintained.

Instructions for supplementation are provided for each supplement, identified by Supplement number, date and inclusive ordinance numbers. The Instructions for posting the removal and replacement of pages must be followed and accomplished in sequence, with the most recent supplementation posted **last**.

When supplementation is completed and the removal and replacement of all supplemented pages are accomplished, the Instructions should be placed behind the Supplementation tab and before this page, with the most recent Instruction sheet on top. Previous Instructions should not be removed, so that the user may refer to this tab section to verify whether the code book is fully updated with all supplements included. It is recommended that the removed pages be filed away for future reference.

The maintenance of a Code with all supplementation is an important activity which deserves close attention so that the value of the Code is maintained as a fully comprehensive compilation of the developmental legislation of the Town and County.
